Project Graduation 2017
Kennett High School
409 Eagles Way
N. Conway, NH
Dear Senior Parents:

Project Graduation 2017 is just around the corner – can you believe it? Some of you may be asking, "What is Project Graduation?" Well let me explain……

Project Graduation is a safe substance-free party, an all-night post-graduation celebration that provides new graduates with a safe, sober and spectacular night following commencement exercises. It started in 1979 in Maine after the Oxford Hills community experienced a tragic seven deaths during commencement season. The event has spread to all 50 states providing safe and fun filled post-graduation activities that last all night in a drug and alcohol free environment.

2017 will be the 30th year Kennett High School Graduating Seniors have celebrated with this event! Historically, Project Graduation has received amazing support from the community. It has been a gift to the graduating class from the community, with the parents of Seniors fund raising for it. The celebration will include a variety of activities and entertainment, food is served and raffle prizes are awarded. As always, adult volunteers will chaperone.

This is a totally self-supporting program sponsored by the Project Graduation Committee, which we hope that you will join in the fall; we receive no funding from the school budget. It is only through the generosity of parents, townspeople, the Mt. Washington Valley business community and many other generous businesses surrounding the Valley that we have been able to host Project Graduation. We have several fundraisers that are in the planning stages and your support is necessary for the success of this traditional celebration.

So what can you do, you may be asking? Everyone is different and has a different comfort zone for fund raising. The first thing you can do is to provide your contact information; the school is not allowed to release such information to us. There will be many opportunities to help out with the various fundraisers that are within your comfort zone.

We are asking that each senior family donate one item with at least a $25 value. These items may be used at fund-raising events throughout the year. If these items can be gathered throughout the summer and turned into the school office by September 16, 2016, that would be greatly appreciated, please put the Seniors name on it. We will be planning a solicitation campaign as well, but an item from each family will be a tremendous help and a great beginning. We thank you in advance. Keep an eye out for more information on the "Project Graduation KHS Class of 2017" Facebook page, via e-mail (as we gather them from you below) and on the KHS Website.
