

September 5, 2017

Greetings Students and Parents,

This is going to be a great year! We have a lot of exciting things happening this year. We have created several new recipes and are constantly seeking new ways to improve the nutritional values of our food. We have been focusing on some new Grab “n” Go items like our new cereal bars. We featured our Cheerio, Almond, and Maple Bars on WMUR-TV in Manchester this summer and you can watch for the cooking demonstration on WMUR channel 9 Cook’s Corner.

We are continuing our “Try-It-Tuesdays” which is the day we encourage students to try something new to see if it is something they would like to see on the menu on a regular basis. We are also going to be introducing breakfast smoothies, a variety of new hot and cold sandwich ideas, plus new items like Chick Pea Poppers. New for this year is a program we call Farm Fresh Fridays where we plan to introduce our students to new recipes using local farm fresh products.

We hope you all take advantage of our two online programs to help us improve our efficiency. Our free and reduced meal application process can be accessed at EZMealApp.com and our convenient online meal payment program is found at EZSchoolPay.com.

So welcome back! We look forward to having a great year together.

Warm Regards,

Brian M. Coffey

Conway Food Service Director
