

New Hampshire School Boards Association

Excellence in Public Education Through School Board Leadership

NHSBA Request for Information:

Legislative Study Commission

Dear Members -

NHSBA is serving on a legislative study commission exploring equal access and opportunity for students with disabilities to participate in co-curricular activities (HB 171). The commission has asked NHSBA to distribute the following short survey about unified programs in public schools (sports, clubs, activities, etc.).

NHSBA is respectfully asking that districts please complete this survey by Monday October 14, 2019. In order to ensure that the survey does not compile duplicative responses, we ask that administrators and school board members please coordinate to have one response per district.

The survey can be accessed here: <https://www.surveymonkey.com/r/3GSMH8L>

The more data and information we can gather will greatly assist the work of this commission.

Thank you for your attention to this matter.

Barrett M. Christina, Esq.
NHSBA Executive Director
