

Kennett High School

Students of the Month for September 2014

Team One: Eilidh McKinnon

This month, we nominated Eilidh for her positive attitude and academic excellence. She stood out on the first day and has shined ever since. We also noted how gracefully Eilidh assimilated into KHS culture; no small feat for a student accustomed to a more intimate classroom atmosphere.

Team Two: Ashley Vajentic

The recipient of this honor is chosen carefully by the team teachers. This month, we nominated Ashley for her positive attitude and academic excellence.

Working with Ashley is a delight and we hope that the remainder of freshman year – and of high school – is a happy, productive, and engaging experience for her.

Team Three: Renee Moon

Renee's determination and positive attitude make her a shining star among her peers. Not only does Renee take care of her own academic work, but she also reaches out and participates actively in class to seek clarification and understanding. She shows her understanding through strong writing and problem solving skills. Leading by example, Renee is a well-rounded student leader we are all proud to have in class.
