

See the improvements we have made at Kennett High School.

THE MILLEN FOUNDATION'S investment in these facilities:

Over the last several years the Gary Millen Foundation has been involved in several initiatives that have supported the needs of a wide spectrum of interests at Kennett High School. The pictures on the right show some of the various projects that the Foundation has supported.

The Gary Millen Foundation is a non-profit 501 (c) (3), formed shortly after the untimely death in May 2006 of longtime Kennett High School teacher and coach Gary Millen. Gary was a mentor and friend to so many people in the Mount Washington Valley. Gary loved teaching and coaching: he believed our youth are the hope for the future, and was involved in several civic endeavors to improve community life.

Since its inception in 2006 the Gary Millen Foundation has raised close to a million dollars to support its mission. In addition, many local businesses have contributed tens of thousands of dollars of "in kind" donations. The Foundation thanks the many individuals who have donated to its projects, as well as the local Foundations including the Ham Foundation and the Goldberg Foundation, who have supported its work.

The Gary Millen Foundation will continue to identify and support projects that will enhance student opportunities at Kennett High School. If you have questions please visit our web site (www.garymillen-foundation.org), or contact any of the Gary Millen Foundation Directors.
